Preface

The Play With Patterns range has two workbooks which develop children's writing skills in an organised manner. The step-by-step approach has been followed to link various strokes with letters, numbers, and shapes. This is an ideal book for younger children who have just started school.

Step followed:

Scribbling and colouring practice to help children hold the pencil properly.

Standing lines and sleeping lines help in formation of L, T, I, H, F, E, numbers 1, 4 and shapes squares and rectangles.

Slanting lines help in the formation of letters V, A, N, M, X, Y, V, Z, W, K, number T and triangles.

Circular strokes help in formation of letters O, Q, numbers 6, 9 and circles.

Tunnel strokes help in formation of letters C, D, P, R, B, J, U and numbers 2, 3, 5.

Spiral strokes help in formation of letters S, G and number 8.

Thumb printing at the end to enhance creativity in children.

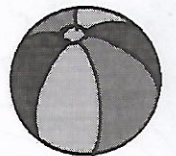

A Few Tips:

- Guide your child to make the correct stroke.
 - Don't scold the child. Be patient.
 - Work on the book in the correct sequence. Don't jump on next page before completing current page.
 - Encourage and motivate the child by giving wholehearted praise.
 - Tracing letters and numbers in sand is helpful.
- Enjoy Writing!
